Subject: Need your help?

Hi Jamie!

I hope you are doing well. I'm wondering if you can help me with something. I would like to write something about how the trans narrative is actually making kids feel suicidal -- how the suicidality is because of transition or perhaps being told that if they are trans, they will feel suicidal. I would be interested to know if you have collected and archived news reports about trans teens who were fully supported by their families who nevertheless attempted or completed suicide. I would like to collect these anecdotes.

Thank you!
